 Take the rack and pinion railway to Hammersbach Station

Start: Hammersbach rack and pinion railway station

Finish: Kreuzeckbahn top terminal

Hammersbach rack and pinion railway station is the starting point for this tour. Walk along the Kreuzeckweg Trail to the Hammersbacher Hut and carry on from there in the direction of Höllentalklamm Gorge. After not even a minute, a forest trail begins on the left which you should follow. After reaching a clearing in Stegerwald forest, the route continues through a densely wooded area along the Jägersteig (Hunter's Trail). After around 250 metres you will arrive at a wide forest road, which takes you through the wild game feeding area and another forest section to wooden steps leading to Kreuzeck. After the steps, follow a narrow trail uphill to the top terminal of the Längenfeld lifts. Now it is only a few minutes to the top station of the Kreuzeckbahn, which will transport you comfortably back down to the valley.
