GARMISCH-CLASSIC

ZUGSPITZE

HIKING AND CLIMBING PARADISE

AT THE FOOT OF THE ALPSPIITZE

The Alpspitze, the jewel of the Werdenfeller Land, towers majestically above the Garmisch-Classic area. A sight that makes the hearts of all mountain lovers beat faster. In the wild and romantic alpine landscape between Alpspitze, Kreuzeck and Hausberg there are hiking trails in every level of difficulty. Short trippers, fit seniors and families will find many beautiful tours that leave enough time to rest and enjoy nature.

The starting points for small and large hikes can be reached easily with the Alpspitz- and Kreuzeckbahn cable cars. In addition, the complete spectrum of alpine climbing is possible in the grippy Wetterstein limestone of the Alpspitze area. From the mountain station of the Alpspitzbahn cable car climbers can reach an unbelievable variety of high alpine tours and via ferratas after only 15 minutes ascent.

A selection of tour recommendations can be found at zugspitze.de

GERMANY'S HIGHEST PEAK

ZUGSPITZE – TOP OF GERMANY

At 2,962 meters above sea level, the Zugspitze in southern Bavaria outdoes every other mountain in Germany. Thanks to convenient cable car and railway facilities you do not need to be a tenacious mountaineer to get to the summit. Visitors from all over the world love the mountain for its glacier, four-country panoramic views and summit restaurant.

The modern Cable car Zugspitze, the ageless cogwheel train and the Gletscherbahn cable car make the Zugspitze a highly accessible destination. On the very top, Germany's most beautiful roof terrace is a popular spot to enjoy the unique 360° panorama of 400 alpine peaks in Germany, Austria, Italy and Switzerland. The golden summit cross at eye level can be admired year-round. Looking out into the distance on a clear day – up to 250 kilometers – brings an unbelievable feeling of space and freedom.

ENDANGERED WORLDS

THE GLACIERS ON ZUGSPITZE

On Zugspitze you can find two of the last glaciers in Germany – the Nördliche Schneeferner and the Höllentalferner. Even in high summer you will feel the primal force of the elements and discover, how over millennia wind, snow, ice and sun have shaped the mountain landscape at 2,600 meters above sea level. But also the „eternal ice“ on Zugspitze is actually threatened by global warming. Already in 2022, the Südliche Schneeferner at plateau Zugspitze has lost its status as a glacier. Now it is categorized as a dead ice. The Nördliche Schneeferner will also be completely melted in a few years.

A circular trail on plateau Zugspitze gives interesting facts about the glacier and shows the changes that have taken place over the last few decades. Interested visitors can also take part in guided tours with the glacier guides to explore the glacier-formed landscape and learn more about the Schneeferner on plateau Zugspitze.

The challenging hiking trail leads from the valley stations of the Kreuzeck- and Alpspitzbahn cable car up to the start of the downhill piste at Kreuzjoch and on to the mountain station of Kreuzeckbahn cable car. A second variant takes hikers from the Tröglhang directly to the Kreuzeckbahn cable car. Information boards along the way also provide interesting background facts about the legendary slope.

Both variants of the Kandahar Hike are challenging trails and are only recommended for experienced hikers with a good level of fitness and surefootedness.

MOUNT WANK

PANORAMIC MOUNT WANK

RELAXED MOUNTAIN EXPERIENCE FOR THE WHOLE FAMILY

Mount Wank might seem unassuming at first compared to its striking neighbours Zugspitze and Alpspitze. Yet it is precisely because there are no craggy cliff faces rising into the sky here, but rather a long summit plateau that invites to linger and stroll along the small circular hiking trail. The panoramic mountain is the first choice for leisurely hours on the mountain.

Families, fit seniors, nature lovers and people seeking peace and quiet – on Mount Wank they all find a place to refuel, take a breath and relax. Next to the mountain station of the Wankbahn cable car, a naturally designed children's playground offers fun and variety for young visitors. Child-friendly elements invite to scramble, balance and swing in front of the impressive panoramic view of the surrounding mountains.

SONNENALM ON MOUNT WANK

REST WITH PANORAMIC VIEWS

The Sonnenalm restaurant spoils visitors of Mount Wank with bavarian cooking and regional specialities. The focus is on high-quality, regional and sustainable products. The cozy and brightly designed lounge can hold up to 180 people. Besides incredible panoramic views of the surrounding mountains, the spacious sun terrace offers plenty of sunny seating.

BREAKFAST ON MOUNT WANK

In summer there is a special offer for early birds! Everyday from 9:00 to 11:00 a.m. you can enjoy a rich breakfast in the Sonnenalm restaurant. The attractive combination ticket including the ride with the Wankbahn cable car and breakfast is only available online at zugspitze.de/events.
