Excerpt from our tariffs. Our complete tariff overview is provided at our stations and ticket desks as well as online at zugspitze.de/prices.

No free transport of people with disabilities according to § 228 SGB IX (German Social Insurance Code vol. IX) on the cogwheel train between Grainau and Zugspitze and on the cable cars, chair lifts and drag lifts operated by Bayerische Zugspitzbahn Bergbahn AG. On purchase of a ticket, passengers are bound by the general conditions of carriage, which are publicly displayed at all stations. Tickets are non-transferable. ID required for reduced tariffs. All prices in euro. Subject to errors, misprints and changes.

Please note that for control purposes and to avoid misuse, personal data is processed (especially by readers) when using a cable car or cogwheel train ticket. The data will be deleted according to legal requirements. More information on processing of personal data available on corresponding local notices and at zugspitze.de/en/Privacy-policy.

ZUGSPITZE

GERMANY’S HIGHEST PEAK

At 2,962 meters above sea level, the Zugspitze in southern Bavaria outdoes every other mountain in Germany. Thanks to convenient cable car and railway facilities you do not need to be a tenacious mountaineer to get to the summit. Visitors from all over the world love the mountain for its glacier, four-country panoramic views and summit restaurant.

The modern Cable car Zugspitze, the ageless cogwheel train and the Gletscherbahn cable car make the Zugspitze a highly accessible destination. On the very top, Germany’s most beautiful roof terrace is a popular spot to enjoy the unique 360° panorama of 400 alpine peaks in Germany, Austria, Italy and Switzerland.

ZUGSPITZE ROUND TRIP

Start of the round trip is the Zugspitzbahn station Garmisch-Partenkirchen, but the trip can also be started at other stops of the cogwheel train. From there it takes 70 minutes via Grainau, past lake Eibsee and through the tunnel to plateau Zugspitze. The Gletscherbahn cable car takes you in a few minutes to the summit station. The Cable Car Zugspitze takes you back to the valley. From the valley station at lake Eibsee, the cogwheel train brings you back to the starting point. It’s also possible to go on the round trip in the opposite direction.

FAREWELL VISIT ON ZUGSPITZE

GLACIER TRAIL

A circular trail on plateau Zugspitze gives interesting facts about the glacier and shows the changes that have taken place over the last few decades. Together with the Environmental Research Station Schneefernerhaus, the Glacier Trail was completely revised 2024. The six panels inform you about glaciers, golbal warming, the Environmental Research Station Schneefernerhaus and geology at Zugspitze.

- » Duration: about 45 minutes | We recommend solid footwear.
- » The stations are only set up during the summer season and can be explored in any order.

GLACIER TOURS

Interested visitors can also take part in guided tours with the glacier guides to explore the glacier-formed landscape and learn more about the Schneeferner on plateau Zugspitze.

- » Twice a day during the summer season (only in good weather)
- » Duration: about 45 minutes | Solid footwear is required.
- » Free of charge for cable car guests

For deeper insights into the glacier world, we recommend the bookable glacier excursions, see “events & specials”.

GARMISCH-CLASSIC

HIKING AND CLIMBING PARADISE AT THE FOOT OF THE ALPSITZE

The Alpspitze, the jewel of the Werdenfeller Land, towers majestically above the Garmisch-Classic area. In the wild and romantic alpine landscape between Alpspitze, Kreuzeck and Hausberg there are hiking trails in every level of difficulty. Short trippers, fit seniors and families will find many beautiful tours that leave enough time to rest and enjoy nature.

The starting points for small and large hikes can be reached easily with the Alpspitz- and Kreuzeckbahn cable cars. In addition, the complete spectrum of alpine climbing is possible in the grippy Wetterstein limestone of the Alpsitze area.

GARMISCH-CLASSIC ROUND TRIP

The Garmisch-Classic Round Trip connects all the major attractions of the hiking area: The three cable cars Alpspitzbahn, Hochalmbahn and Kreuzeckbahn take young and old alike into the mountain world of the Wetterstein massif, where they can enjoy fresh mountain air and a fantastic panorama.

VIEWING PLATFORM ALPSPIX

Two steel beams hold up the two crossing walkways, which provide an incomparable view of the surrounding mountains. The glass front at the end of the 25-metre-long platform wows visitors with a jaw-dropping view of the Höllental valley a thousand metres below.

NATURSTEIG OSTERFELDER

At over 30 interactive stations between the Alpspitzbahn mountain station on the Osterfelderkopf and the Kreuzeckbahn mountain station, knowledge about nature and the local mountains is combined with movement elements from Felix Neureuther’s „Beweg dich schlau!“ initiative. Depending on how much you like hiking, you can also walk only parts of the trail and decide for yourself whether you prefer to hike uphill or downhill.

Section 1: Around Osterfelderkopf

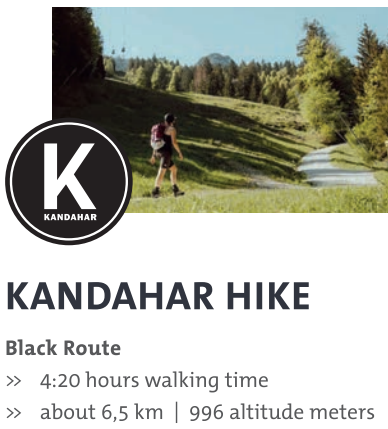

8 stations and the viewing platform AlpsiX | about 500 meters | 30 min.

Section 2: Mountain station Alpspitzbahn cable car – Hochalm

Can be skipped with the Hochalmbahn cable car | 16 stations about 2,5 km | 350 altitude meters | downhill 75 min. | uphill 90 min.

Section 3: Hochalm – Mountain station Kreuzeckbahn cable car

7 stations | about 1,5 km | 100 altitude meters | downhill 55 min. | uphill 60 min.

KANDAHAR HIKE

Black Route

- » 4:20 hours walking time
- » about 6,5 km | 996 altitude meters

Red Route

- » 3:40 hours walking time
- » about 5 km | 880 altitude meters

The legendary Kandahar downhill run is considered one of the most challenging downhill runs in the Alpine Ski World Cup. Who can take on the challenge and conquer the Kandahar uphill in summer?

The challenging hiking trail leads from the valley stations of the Kreuzeck- and Alpspitzbahn cable car up to the start of the downhill piste at Kreuzjoch and on to the mountain station of Kreuzeckbahn cable car. A second variant takes hikers from the Tröglhang directly to the Kreuzeckbahn cable car. Information boards along the way also provide interesting background facts about the legendary slope.

Both variants of the Kandahar Hike are challenging trails and are only recommended for experienced hikers with a good level of fitness and surefootedness.

MOUNT WANK

PANORAMIC MOUNTAIN – RELAXED EXPERIENCE FOR THE WHOLE FAMILY

Mount Wank might seem unassuming at first compared to its striking neighbours Zugspitze and Alpspitze. Yet it is precisely because there are no craggy cliff faces rising into the sky here, but rather a long summit plateau that invites to linger and stroll along the small circular hiking trail. The panorama mountain is the first choice for leisurely hours on the mountain.

The Sonnenalm restaurant spoils Mount Wank visitors with Bavarian cooking and regional specialties. The focus is on high-quality, regional and sustainable products. Besides incredible panoramic views of the surrounding mountains, the spacious sun terrace offers plenty of sunny seating.

PLAYGROUND WITH A VIEW

Directly at the mountain station of the Wankbahn cable car, a children’s playground designed close to nature also offers young visitors fun and variety. For summer 2025, the area was expanded to include several new elements. In front of the unique view, various wooden play equipment invite little mountain enthusiasts to balance, climb and slide. Swings and a children’s cable car also keep children entertained, while parents can enjoy the panorama on one of the numerous loungers.
