

KANDAHAR HIKE

Along the famous World Cup run

Garmisch-Classic
HAUSBERG KREUZECK ALPSPITZE

START Kreuzeckbahn valley station

FINISH Kreuzeckbahn mountain station

The challenging Kandahar Hike starts at the Kreuzeckbahn valley station and leads past the world-famous „Freier Fall“ section. Shortly before the „Eishang“, the trail leads left to the Kandahar Express. Following the path on the left-hand side of the ski lift, you reach a clearing through alternating wooded and open areas. Pass the Tröglhütte on the left towards Kreuzjoch, and after a steep passage you reach your destination - the start of the World Cup downhill run. The path below the Kandahar Express leads to the mountain station of the Kreuzeckbahn cable car, which takes hikers back to the starting point. A well-earned refreshment awaits you at the valley station in Kandahar 2 – the meeting point for ski racers and Kandahar conquerors.

EASY VARIANT

The second, easier variant, skips the ascent to the Kreuzjoch. The red Kandahar Hike leads away from the Tröglhütte to the right through the forest, past the Kandahar Express and Hexenkessellift to the Kreuzeckbahn cable car mountain station.
