

**START** Alpspitzbahn mountain station

**FINISH** Kreuzeckbahn mountain station

At over 30 interactive stations on the alpine themed trail combines knowledge about nature and the local mountains combined with movement elements from the „Beweg dich schlau!“ initiative by Felix Neureuther. Depending on how much you like hiking, you can also walk only parts of the trail and decide for yourself whether you prefer to hike uphill or downhill.

### SECTION 1

The shortest stage is a circular route from the Alpspitzbahn cable car mountain station with 8 stations along the Osterfelderkopf.

### SECTION 2

From the mountain station of the Alpspitzbahn cable car, the route follows the Osterfelderlift route through the breakthrough to the valley station of the Hochalmbahn cable car. This stage can also be skipped with the Hochalmbahn cable car.

### SECTION 3

From the Hochalmbahn cable car, the third stage leads along the Hochalbmweg to the mountain station of the Kreuzeckbahn cable car, which takes you back down to the valley.
