

START Cogwheel train station Hammersbach

FINISH Kreuzeckbahn mountain station

The starting point for this tour is the cogwheel train station in Hammersbach. Follow the Kreuzeckweg to the Hammersbacher hut and from there continue in the direction of Höllental gorge. After less than a minute on the forest trail, a path begins on the left which you follow.

After reaching the forest clearing in the Stegerwald forest, continue along the Jägersteig trail, which leads through a densely wooded area. After around 250 meters you reach a wide forest road, which leads you along the wild game feeding area and through another forest section directly to the wooden steps leading to Kreuzeck. At the end of the steps, follow the narrow path uphill to the valley station of the Längenfeld lift. Now it is only a few minutes to the mountain station of the Kreuzeckbahn cable car, which takes you comfortably back down to the valley.

- Uphill: 3 ½ hrs.
Downhill: 2 ½ hrs.
