START Wankbahn valley station
FINISH Wankbahn mountain station

The starting point for this tour is the Wankbahn cable car valley station. In a westerly direction it goes uphill to the road and then on to the „climbing forest“. Behind the climbing garden, a path branches off to the right and continues uphill to the south side of the Wank.

After a while, the trail reaches the Eckenhütte, a scenic rest area above Garmisch-Partenkirchen. From here, it is not far to the middle station of the Wankbahn cable car.

If you want to climb the mountain by foot, turn right and climb the serpentines to the summit.
