## Circular trail around the Wank summit

**START** Wankbahn mountain station  
**ZIEL** Wankbahn mountain station

The 1780 meter high Mount Wank is a panoramic mountain for the whole family. The four-seater cabins takes you comfortably to the mountain station in around 20 minutes.

For pleasure-seekers and families hillside trails have been laid out which invite to a walk. For example, you can explore the Wank on well signposted paths heading north to the Ameisberg and Eckenberg. At the summit plateau, another trail leads in a south-easterly direction to Roßwank.

The most impressive thing about the Wank is the unique panoramic view of the surrounding mountains. The tour around the summit offers plenty of opportunities to take a break. In the „nature cinema“ between Sonnenalm and Wankhaus, you can enjoy the panorama.

The sun terraces of the mountain restaurants also invite you to relax. The Wankbahn cable car takes you comfortably back down to the valley.
